OVERVIEW
Precision medicine emerged to prominence over the last decade with a major impact on outcomes, allowing for personalized cancer treatments. The speed of scientific breakthroughs in precision medicine is leading to groundbreaking therapies. Novel Artificial Intelligence (AI) engines can potentially help to identify patterns and allow teams to uncover innovative strategies for specific cancers and individual patient populations. Today, more than ever before, physician-scientists working with patients need real-time information aimed at creating an improved, value-based survivorship.

The 2nd Biennial Miami Precision Medicine (MPM) 2024 conference will bring together diverse experts in the field to share their knowledge and approaches in moving precision medicine towards routine practice. The course will examine the treatment landscape for various cancer types based on published and emerging data.

An interdisciplinary molecular tumor board case discussion will illustrate the role of genomic alterations in selecting targeted treatments as well as present relevant precision medicine clinical trials.

Patients and advocacy groups will have an opportunity to share their insight, learn about promising clinical trials and partner with physicians to develop new strategies tailored to their specific needs. We aim to identify barriers to precision medicine, to promote and facilitate awareness, education and equity in precision medicine cancer care.

TARGET AUDIENCE
The educational activity is intended for adult and pediatric medical hematologists and oncologists, surgical and radiation oncologists, gynecologic oncologists, pharmacists, primary care physicians, physician assistants, advanced registered nurse practitioners, nurses, research members, residents, fellows, patients and patient-advocacy groups as well as other allied health professionals.

ACCREDITATION
The University of Miami Leonard M. Miller School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CREDIT DESIGNATION
The University of Miami Leonard M. Miller School of Medicine designates this live activity for a maximum of 11.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLOSURE AND CONFLICT OF INTEREST MITIGATION
All conflicts of interest of any individual(s) in a position to control the content of this CME activity will be identified and mitigated prior to this educational activity being provided. Disclosure about provider and faculty relationships, or the lack thereof, will be provided to learners.
